

LIFT THE BURDEN OF PAIN

before the next chapter

Take the quiz

Find out if your leg and back pain is a result of a condition called lumbar spinal stenosis.

- Do you experience pain or weakness in your legs, groin, buttocks, or back when you stand or walk?

- Do you lean forward or sit down to relieve the pain and increase comfort?

- Do you want to live a more active lifestyle without the burden of pain?

If you answered YES to any of these questions, it's time to ask your doctor about a clinically proven treatment option.

Turn over to learn about a procedure to treat leg and back pain.

GET PAIN RELIEF AND IMPROVED MOBILITY

The Vertiflex Procedure is a simple and safe, minimally invasive treatment clinically proven for effective, long-term relief from the pain associated with lumbar spinal stenosis.

Developed with patient safety and comfort in mind to give stenosis sufferers the freedom to live more active lifestyles.
